Outlines

- Introduce ourselves
- Problems
- Solution
- Making our presentation

Two Problems

- Japanese Problem

Communication Between laboratories Problem

- Indonesian Problem

Making UNISON section

Few courses in space field

No laboratory

Lack of Contact with space experts

Solutions for Japanese problem

- Holding regular meetings a year using student representatives for each labs at Tokyo.

We suggest to make a plan and agenda to achieve these meetings

We can use Skype for quick meetings

Solution for Indonesia

- To solve the lack of courses, we can contact with faculty dean.
- To solve the lack of Interest in space, we can hold small events to introduce space activities to engineering students.
- To solve the problem of absent of laboratory, we should contact with the doctors to make it possible.

This chart can summarize the solution of the problem of absent of UNISON-Indonesian.

More Ideas

- Holding courses for high school students
- Contacting electronics & mechanical & aeronautics engineering students
