

Group discussion

- Two different type of CubeSats:
 - Education satellites and commercial type
 - Development cost per 1U: 30K-100K
 - Launch cost: $\frac{1}{2}$ DC, 15K-30K
- What kind of launch you prefer?
 - Frequency and flight heritage
 - Frequency coordination support by launch service provider.
 - Support for Launch safety requirement by Japanese university.
 - Support in the review of the satellite prior to launch.
 - Availability of testing facilities and resources
