

1st UNISEC Global Meeting

23 November 2013, Tokyo

Space education activities and local UNISEC establishment in Taiwan

UNISEC-Taiwan PoC: Prof. Jyh-Ching Juang
UNISEC-Taiwan Student representative: Jordan Vannitsen
National Cheng Kung University, Tainan, Taiwan

Table of Contents

- **Space Education/Research Actors in Taiwan**
- NCKU Space Activities
 - Micro/Nano-Satellites
 - Sounding Rockets
 - Atmospheric Balloons
- Potential collaboration areas
- UNISEC-Taiwan establishment

Space Education Actors In Taiwan

National Cheng Kung University (NCKU)

National Central University (NCU)

National Taiwan University (NTU)

National Tsing Hua University (NTHU)

National Space Organization (NSPO)

NSPO

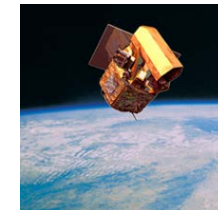

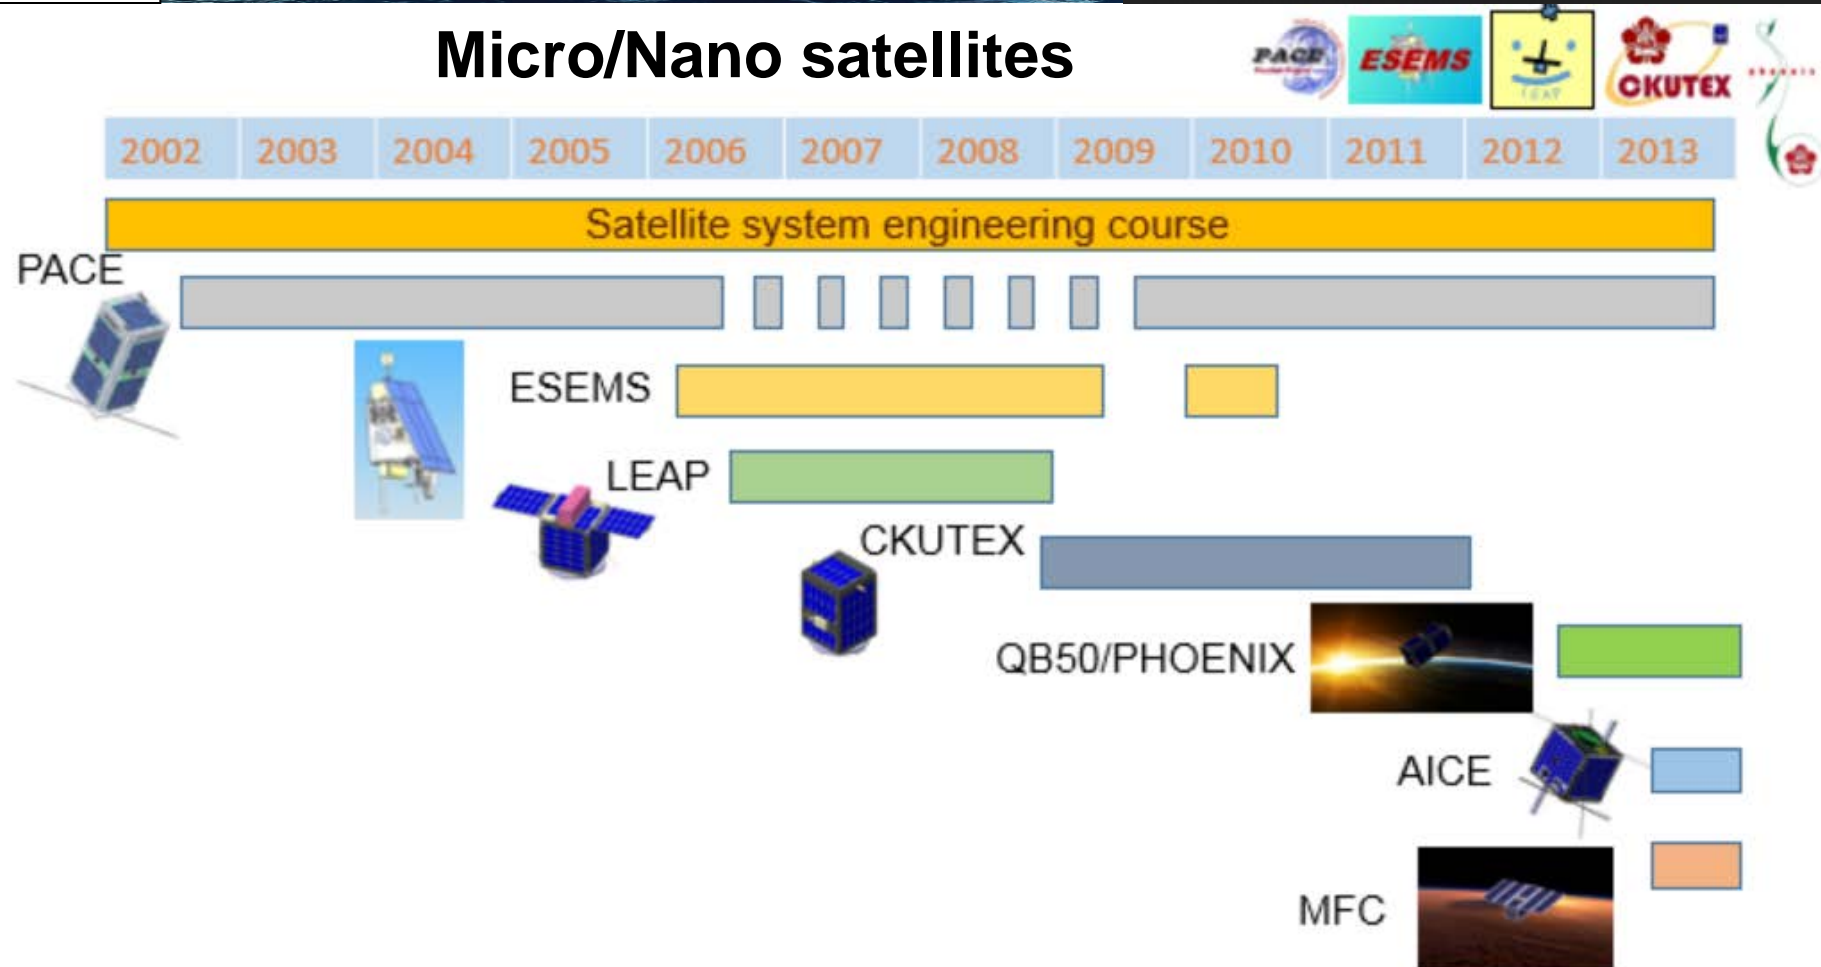

Table of Contents

- Space Education/Researches Actors in Taiwan
- **NCKU Space Activities**
 - Micro/Nano-Satellites
 - Sounding Rockets
 - Atmospheric Balloons
- Potential collaboration areas
- UNISEC-Taiwan establishment

Micro/Nano satellites

Sounding Rockets

NSPO rocket (Universities Scientific Payloads)

**NCKU rocket
(NCKU Scientific Payloads)**

Atmospheric balloons

NCKU balloons (NCKU Scientific Experiments)

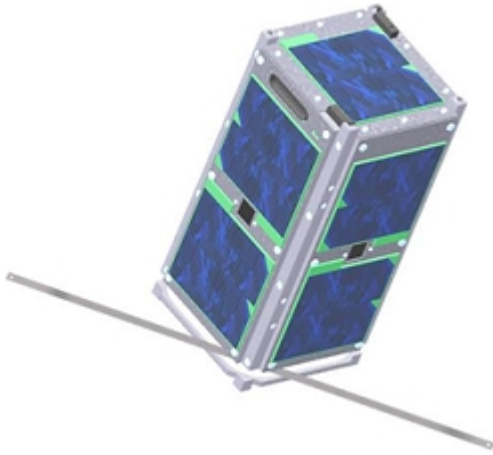

Table of Contents

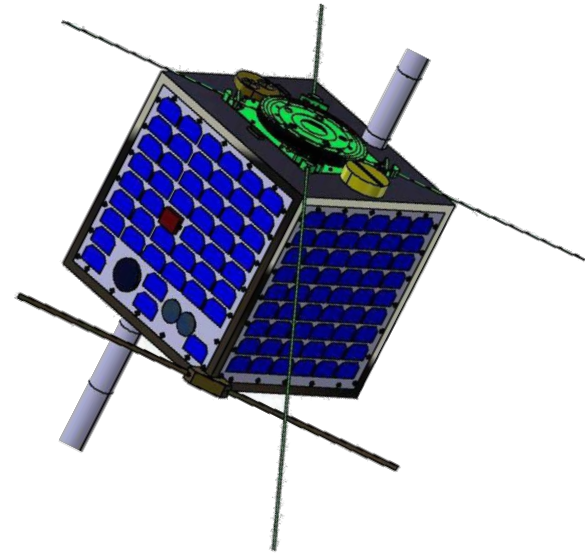

- Space Education/Reseraches Actors in Taiwan
- NCKU Space Activities
 - Micro/Nano-Satellites
 - Sounding Rockets
 - Atmospheric Balloons
- **Potential collaboration areas**
- UNISEC-Taiwan establishment

Potential collaboration areas

Micro/Nano satellites

CubeSats

MicroSatellites

Many good ideas

Propose Missions to UNISEC chapters to make an
International Satellite

Share experience, costs and scientific data

Potential collaboration areas

Sounding Rockets

Students from different UNISEC chapters could work together on a common Sounding Rocket.

Students from different UNISEC chapters could design and build scientific and technological experiments to put on the NCKU Sounding Rocket and/or on the common Sounding Rocket.

NCKU Hybrid Rocket

Potential collaboration areas

Atmospheric balloons

Students from different UNISEC chapters could design and build scientific and technological experiments to put on a same atmospheric balloon.

Share experience, costs and scientific data.

NCKU Balloon

Table of Contents

- Space Education/Researches Actors in Taiwan
- NCKU Space Activities
 - Micro/Nano-Satellites
 - Sounding Rockets
 - Atmospheric Balloons
- Potential collaboration areas
- **UNISEC-Taiwan establishment**

UNISEC-Taiwan establishment

- Already have UNISEC local PoC: Prof. Jyh-Ching Juang, NCKU.
- NCKU has been (and will keep going to be) a MIC participant.
- MOU between NCKU and Kyushu Institute of Technology.
- Promote the UNISEC in Taiwan in space events.
- Organize a workshop to gather interested actors.
- Enhance collaboration between different space laboratories in Taiwan and with other UNISEC chapters (satellites, sounding rockets and atmospheric balloons).
- Space outreach event (Yuri's night, World Space Week).

CONCLUSION

- Collaboration in Small Satellites / Sounding Rockets / Atmospheric Balloons.
- Share the experience, costs, scientific results.
- Working together with other UNISEC organizations will allow more ambitious Space projects.
- Forum on the UNISEC-Global Website for discussing between Local-UNISEC chapters?

1st UNISEC Global Meeting

23 November 2013, Tokyo

Thank you for your attention!

Thank you UNISEC!
