

Brief Biography of Student Representative of 2014

Country	Mexico	Portrait 
Name of Student Rep	Octavio Rafael Farias Altamira	
University/College	Universidad Autónoma de Nuevo León	
Email Address	octavio_farias@hotmail.com	
Brief Biography	<p>I'm an aeronautical engineer from de Autonomous University of Nuevo Leon, until I was a child I like the planes, but during my career in this university other things come to like me, and what now a days it is my passion, the composites materials and the many fields of application of it, like satellites, spacecraft, etc.</p> <p>This is why, when a finished my career of engineer, I decided to specialize in composites materials, and I started my master degree in aeronautical engineering with materials orientation, At the present time I'm studying the 2nd year of the specialization. During my carrier and the Master, I've been collaborating on research, courses and industrial services in the Center of Innovation and Research in Aeronautical Engineer, (CIIA) for the name in Spanish.</p> <p>A few years ago Mexico star to research on the field of aerospace, this why I want to research in this "new" topic for my country, because I want to contribute with information for this field and in the future I hope that some of this materials that we research could be at the space in a satellite.</p>
