

# ABOUT

Unisec Global (UNIGLO) was established in 2013. We are a non-profit & non-governmental international organization supporting **space engineering education** in Japan and around the globe.

We currently have **21 local chapters** and **54 points of contact** across **51 countries/regions** worldwide. In 2017 we obtained an observer status at the UN Committee on Peaceful Uses of Outer Space (COPUOS).

# VISION

UNISEC-Global envisions a world where space science and technology are used by individuals and institutions in every country, rich or poor, and offers opportunities across the whole structure of society—whether academic, industrial or educational— for peaceful purposes and for the benefit of humankind.

# MISSION

UNISEC-Global will create an environment that will promote the free exchange of ideas, information and capabilities relating to space engineering and its applications, especially for young people, including those in developing countries/regions and emerging economies.
