UNISEC-Global: An overview

- UNISEC-Global is an **international, non-profit, non-governmental organization, consisting of local-chapters** across the world.
- Since its establishment in November 2013, it has provided an annual forum, training programs, competitions.
- In 2017, it was accepted **as permanent observer by UN Committee on the Peaceful Uses of Outer Space (COPUOS)**.
- Its primary objective is to help create a world where space science and technology is used by individuals and institutions in every country, rich or poor for peaceful purposes and for the benefit of humankind.

28 Local Chapters, 69 Points of Contact, >210 university members

UNISEC-Global “Vision 2030-ALL”

*“By the end of 2030, let’s create a world where university students can participate in practical space projects in **all** countries/regions.”*

Changed from the original
“Vision 2020-100”

In every country, there must exist some space-related experts as they need to at least purchase some space-related products, such as communication satellites, GPS or earth observation services etc.

**The 2030 Agenda for Sustainable Development
Key principle: No one will be left behind.**

UNISEC Local Chapter's function in space community

- UNISEC Local Chapters promote and support practical university space activities.
 - Care member universities
 - Disseminate information
 - Provide effective training and education to Academia, Government, and Industry.
 - Contribute to International Network
- Local Chapter can function to coordinate among different stakeholders in the space field.
- University's strength
 - Professional researchers and educators
 - Continuity
 - Promising new students (every year)
 - Graduates everywhere
 - Diverse departments and experts
- Why can UNISEC-LC be the center?
 - The same triangles are in many different places worldwide.
 - Network and platform are provided.
