

The background is a dark blue gradient representing a night sky, filled with numerous small white dots representing stars. Two shooting stars, depicted as white streaks with faint trails, are positioned in the upper right and lower left quadrants. A prominent eight-pointed starburst is located in the upper left. At the bottom of the image, there is a dark blue silhouette of a mountain range.

Space related hackathons

Hackathons for students with different academic backgrounds such as the Cassini Hackathon and the NSO Spatial data for Biodiversity Hackathon

Hackathon puts Biodiversity on the Map

Space Education

Associations such as the ones at the TU Delft, Leiden University, Groningen University and the Leiden Precision Making School, but even some high schools, organise space education trips around The Netherlands.

National Space Agency activities

The NSO and the Dutch government helped to organise 'Moonshot 24', an initiative for higher education students all around the Netherlands to work on an 'Outside of the box' and futureproof idea while collaborating with Astronauts.

National Space Agency activities

During the ASE planetary congress in Noordwijk around 100 astronauts got together and listened to the finals of the Moonshot program, here NSO(Dutch Space Agency) announced their future plans for 'Space For Talent'.

Space society casual get togethers

- Artemis Space Bar
- NVR (Summer) drinks
- NL Space campus Network & Drinks and XL at the Space Expo
 - SGAC drinks
 - Brabant Space Network

Network and career

Several events for young professionals to get in contact with the Space Industry organised at Universities like in Delft or even during the IAC in Milan at the NL Space Booth.

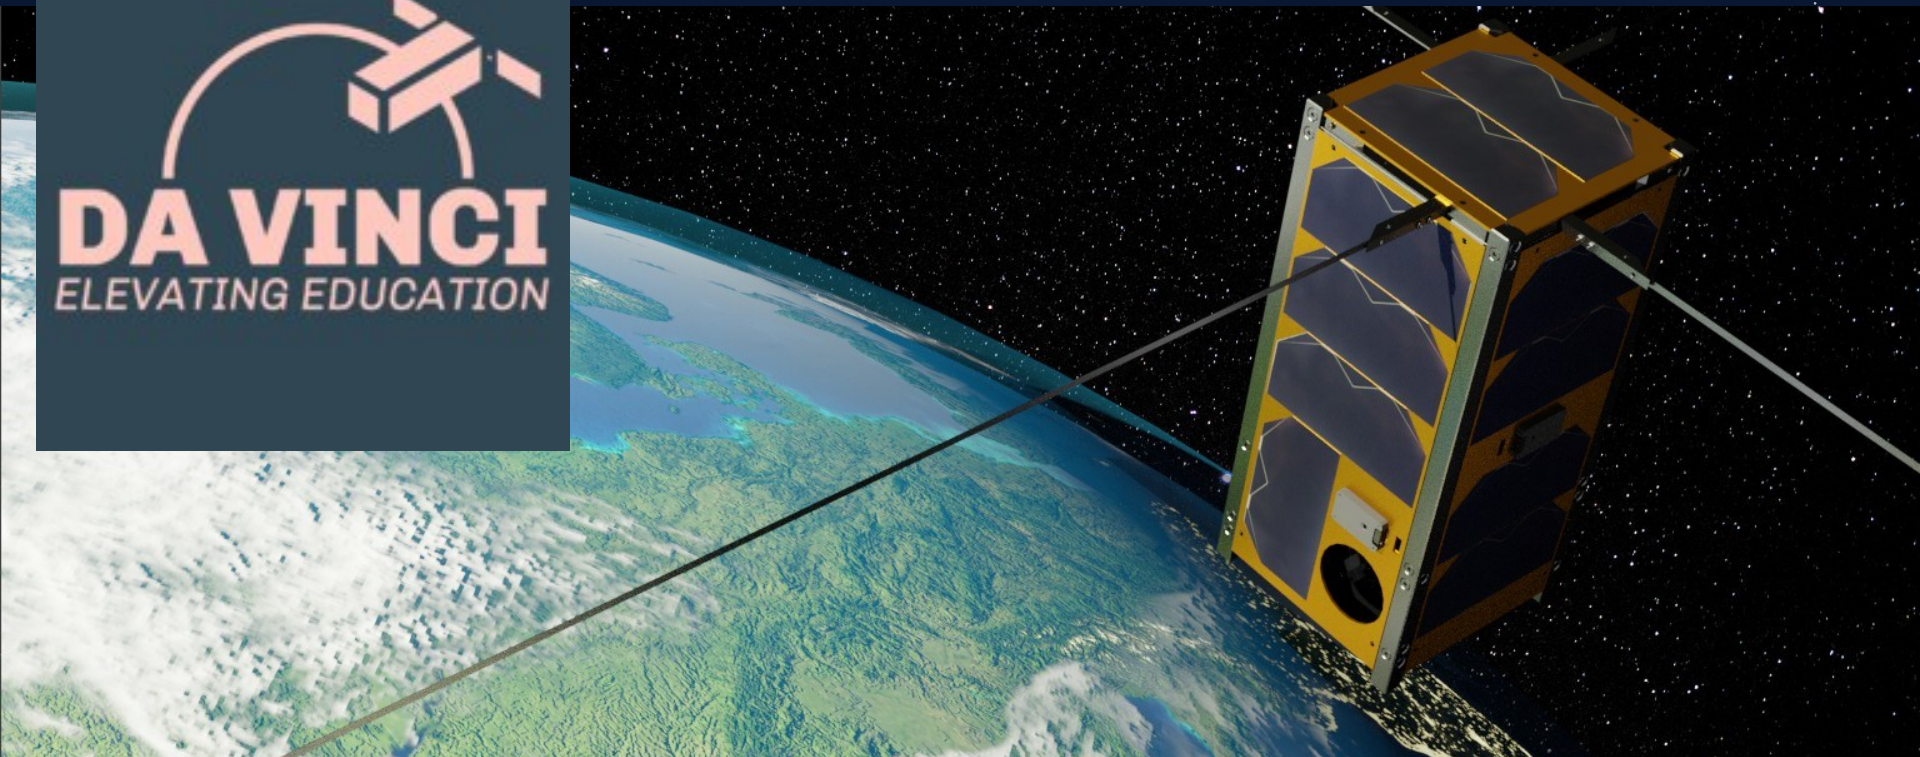

Others

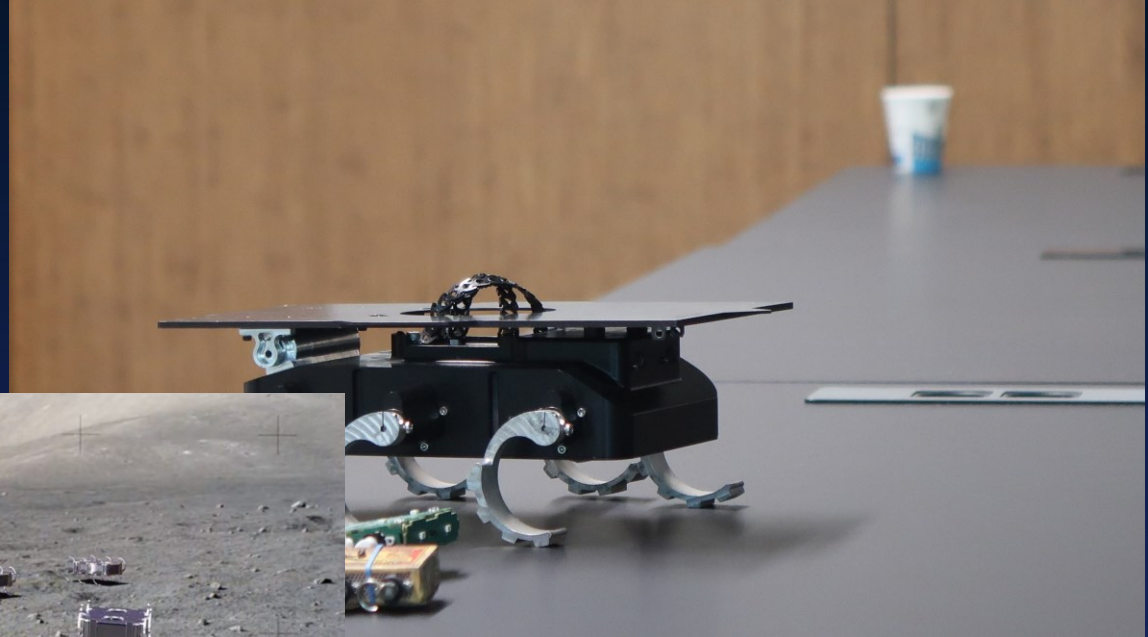

There have also been other events organised in the Netherlands for the general public to get more inspired by Space, like a concert this month in the New Church in Delft or the 'Full Moon live finals' for artists that made an artwork related to the Moon.
