

# Group 6: International collaboration proposal

## Participants

- Purwa Manggala
- Farah Anoum
- Tidiane Outtawar

## Moderators:

- Alfonso Villegas
- Tristan Trebaol
- Nicolas Martinod

## Assistant:

- Hirotaka Kondo

# Overview

- We arrived with the wrong approach
- We were biased by our needs
- International collaboration is a mechanism
- This was a very instructive discussion

# Overview

## What?

Development of a CubeSat platform

Testing facilities and testing procedures

Satellite activities from agricultural purposes

Payload

## Why?

Lack of experience

Lack of infrastructure and expertise

Many applications in country/continent

Lack of expert

## How?

Consortium, meetings  
Collaborative platform  
Exchange of students

Exchange/sharing

Build expertise

Find experts

# Cross-cutting issues

## What?

## Why?

## How?

Development of a CubeSat platform

Lack of experience

Collaborative platform  
Exchange of students

Testing facilities and testing procedures

Lack of infrastructure and expertise

Exchange/sharing

Satellite activities from agricultural purposes

Many applications in country/continent

Build expertise

Payload

Lack of expert

Find experts

Coordination (information, people, etc.)

Regulations

Cultural issues

Funding

# Challenges and opportunities

Before starting a collaboration you need to know the challenges and opportunities arising from it.

There is no general answers and it depends on the actors and topics. Nevertheless, its is crucial in order to have a Win-Win collaboration.
