Opening Remarks
23rd *Virtual UNISEC-Global Meeting*
Space and SDGs

George Maeda

16 July 2022

UNISEC GLOBAL
University Space Engineering Consortium

This is the official statement about SDGs from the United Nations

What are the Sustainable Development Goals?

The Sustainable Development Goals (SDGs), also known as the Global Goals, were adopted by the United Nations in 2015 as a universal call to action to end poverty, protect the planet, and ensure that by 2030 all people enjoy peace and prosperity.

The 17 SDGs are integrated—they recognize that action in one area will affect outcomes in others, and that development must balance social, economic and environmental sustainability.

Countries have committed to prioritize progress for those who're furthest behind. The SDGs are designed to end poverty, hunger, AIDS, and discrimination against women and girls.

The creativity, knowhow, technology and financial resources from all of society is necessary to achieve the SDGs in every context.

1 NO POVERTY	**7** AFFORDABLE AND CLEAN ENERGY
2 ZERO HUNGER	**8** DECENT WORK AND ECONOMIC GROWTH
3 GOOD HEALTH AND WELL-BEING	**9** INDUSTRY, INNOVATION AND INFRASTRUCTURE
4 QUALITY EDUCATION	**10** REDUCED INEQUALITIES
5 GENDER EQUALITY	**11** SUSTAINABLE CITIES AND COMMUNITIES
6 CLEAN WATER AND SANITATION	**12** RESPONSIBLE CONSUMPTION AND PRODUCTION

13 CLIMATE ACTION

14 LIFE BELOW WATER

15 LIFE ON LAND

16 PEACE, JUSTICE AND STRONG INSTITUTIONS

17 PARTNERSHIPS FOR THE GOALS

SUSTAINABLE DEVELOPMENT GOALS INTEGRATION

UNISEC GLOBAL
University Space Engineering Consortium

The UN has had these "Grand Plans" before, but this time the emphasis is on

sustainability

UNISEC GLOBAL
University Space Engineering Consortium

At UNISEC-Global, we feel an important requirement for sustainability is
Capacity Building

TRAINING   SUPPORT   KNOWLEDGE   COMPETENCE   DEVELOPMENT   LEARNING   SKILLS   GOAL SETTINGS

CAPACITY BUILDING

Some of the local chapters . . .

UNISEC-Global has decided to foster *capacity building in space engineering* by setting up local chapters all throughout the world.

UNISEC-Global Vision 2030-All

*"By the end of 2030,
let's create a world where
university students can participate in
practical space projects in
all countries/regions."*

**The 2030 Agenda for Sustainable Development
Key principle: No one will be left behind**

Local Chapter Empowerment Program

❖ Each Local Chapter will prioritize their needs, finding a good way to sustain and develop their UNISEC activities.

❖ UNISEC Congruent systems program

- UNISEC-Japan will introduce systems and knowhow gathered over 20-years on operations, and local chapters will adopt useful systems in their operation.

UNISEC GLOBAL
University Space Engineering Consortium

UNISEC Global Triangle
-- congruent systems program

UNISEC Local Chapter
has the potential to
coordinate Academia,
Government, and Industry
as a focus of technology,
training, education, policy,
and incubation, within the
UNISEC-Global network.

Coordination between LC and UG

❖ Coordination between Local Chapter activities and UNISEC-Global activities

- UNISEC-Global Meeting – Planning and Activity Report
- Host Virtual UNISEC-Global Meeting
- Best Local Chapter of the year (TBC)
- Mission Idea Contest (MIC)– Local Competition(Pre-MIC)
- CanSat Leader Training Program (CLTP)
  - CLTP12 (HEPTA-Sat Training) will be organized in August 2023 (TBC).

Thanks for your attention

If you want to establish a local chapter in your country, please contact
Ms. Rei Kawashima in Japan
